Founded in 2002 from the integrated operations of TeleGeography and CIT Publications, PriMetrica's platform of authoritative data sets and objective analysis have provided clear guidance to thousands of clients in over 100 countries. The company's communications industry research delivers time-sensitive statistics and insight on hundreds of markets and thousands of service providers.

PriMetrica offers individual and enterprise subscriptions to online databases and reports on subjects ranging from wireless carrier competition to global Internet backbone traffic. In addition, the company's team of experienced consultants can supply customized market analysis, strategic advice, and support services to clients anywhere in the world.
